Be With You -

And I'm longing to be with You

Spoken Word: **Bm G D Asus A**

Either this is the darkest night
 Or my eyes are shut 'cause I can't see
 Are my fingertips completely numb
 'Cause I can't feel a thing
 You said You'd never leave
 And I'm trying to figure out what that means
 Like right now in real time
 And lies starting to sound like truth bouncing around in my mind
 And all I hear is echos from my prayers hitting the ceiling
 The fact that You got out of Dodge is actually chilling
 You've been gone so long that my phone had died
 And if I'm honest I had a moment, you know an ugly cry
 I need You up close and personal this is my "do You love me cry"
 Waves of anxiety crashing against my boat
 Hail storms pouring down and I'm soaked
 I need hope just to hope
 Convince me that You're here and that life is not some sick joke
 Where are You? Drop your pen because dark clouds are rolling in
 Everything is either broke or on fire
 You said You're faithful, don't make Yourself a liar
 Weeks feel like seconds, months feel like minutes
 I sent an earnest prayer, I'm wondering did you get it
 Wondering if You listen
 Are You pulling my leg and if You are than admit it
 Maybe Your love did come and I just missed it
 Did You even forgive me, did you forget me
 You know what I need is for You to show up
 Because this pain it won't slow up
 Doubt tasting like sugar to the brain
 But the fruit it produced, it won't sustain
 And somewhere beyond these tornadoes
 There's a God who looks low
 Who takes time to empathize and hear cries
 And He knows all of our tears on a first name basis
 We can touch the scars in His hands to know that He will save us

Bridge

Bm **G** **D**
Oh there will be a day when darkness fades
Asus **A** **Bm**
When fear and doubt no longer have their claim
G **D**
There will be a day when cancer's gone
Asus **A** **Bm**
Tears will be no more, we'll know the race is won
G **D**
But until that day, I will proclaim
Asus **A** **Bm**

Be With You -

You are Lord of Light, You are the only way
To break the power of sin, death in it's grave
Oh what a glorious day!!!

Chorus 2

The dawn is here
I can see You so clearly
Hope is in view
I will glory to be with You
