

There is a Light [Lyrics, 72 bpm, 4/4]

[Default Arrangement]

V1:

Darkness tries to hide the light,
But there's City on a hill so bright,
Giving us a hope to carry on
Come broken hearts broken homes,
Shattered dreams and wounded souls
Come in to a place to call your own

Chorus

There is a light, shining over you and I
There is a light, piercing through the darkest night
There is a light, healing any broken life
There is a light, there is a light

V2:

Come take heart have no fear,
The Lord our God is with us here,
His Mercy is new everyday
Weary soldier lift your eyes
Just be strong faith's a fight
But God is with us all the way

Chorus

There is a light, shining over you and I
There is a light, piercing through the darkest night
There is a light, healing any broken life
There is a light, there is a light

Instrumental (Oh's)

Oh oh oh... oh oh oh...
Oh oh oh... oh oh oh...
Oh oh oh... oh oh...
There is a light, there is a light

V3: (Breakdown)

We won't need the sun to shine,
The Lord our God will be our light
We'll meet on that beautiful shore
Come one and all the time is near
The Lord of life will soon appear
The shadows of this life will be no more

Chorus (3x)

There is a light, shining over you and I
There is a light, piercing through the darkest night
There is a light, healing any broken life
There is a light, there is a light
